Team of Teams Gen. Stanley McChrystal

2015-05-12 From the New York Times

bestselling author of *My Share of the Task and Leaders*, a manual for leaders looking to make their teams more adaptable, agile, and unified in the midst of change. When General Stanley McChrystal took command of the Joint Special Operations Task Force in 2004, he quickly realized that conventional military tactics were failing. Al Qaeda in Iraq was a decentralized network that could move quickly, strike ruthlessly, then seemingly vanish into the local population. The allied forces had a huge advantage in numbers, equipment, and training—but none of that seemed to matter. To defeat Al Qaeda, they would have to combine the power of the world's mightiest military with the agility of the world's most fearsome terrorist network. They would have to become a "team of teams"—faster, flatter, and more flexible than ever. In *Team of Teams*, McChrystal and his colleagues show how the challenges they faced in Iraq can be relevant to countless businesses, nonprofits, and organizations today. In periods of unprecedented crisis, leaders need practical management practices that can scale to thousands of people—and fast. By giving small groups the freedom to experiment and share what they learn across the entire organization,

teams can respond more quickly, communicate more freely, and make better and faster decisions. Drawing on compelling examples—from NASA to hospital emergency rooms—Team of Teams makes the case for merging the power of a large corporation with the agility of a small team to transform any organization.

Lemon-Aid Used Cars and Trucks 2012-2013

Phil Edmonston 2012-05-19 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Trump: America First Corey R. Lewandowski 2020-09-29 New York Times bestselling authors and close advisors to the president Corey R. Lewandowski and David N. Bossie write from the front lines of Trump's battle to keep America great. Trump: America First gives the reader a firsthand and inside account of the Trump

administration's battle for the soul of America. As we face the most critical presidential election of our lifetimes, we find ourselves buried in an avalanche of political spin, candidate talking points, and slick campaign ads. Then, just as you're ready to give up, along comes a book that makes sense of a political time like none that have come before. Written with the urgency of a countdown and by President Trump's two top outside political advisors and friends, Corey R. Lewandowski and David N. Bossie, *Trump: America First* blasts through the nonsense to deliver a first-hand account of the Trump presidency and reelection campaign during its most tumultuous time. From the COVID-19 shutdown in March to the campaign leadership shakeup and reset in July, Lewandowski and Bossie are present for every big moment, and now the reader is too. With unprecedented access to President Trump, the authors take us inside the Oval Office, aboard Air Force One, and backstage at Trump rallies. As they did in their first two blockbuster New York Times bestsellers, Lewandowski and Bossie show a side of the president few get to see. Along the way, Lewandowski and Bossie also tell of their own battles with the forces aligned against the president, and bring us inside the White House to the rough-and-tumble world of Trump's West Wing. *Trump: America First* also makes a case for electing Donald Trump to a second term. From revamping our trade with China to replacing NAFTA, from NATO to Kim Jong Un, Donald Trump leaves Joe Biden in the dust. Written with the authors' usual wit and political insight, *America First* is truly a book a political book for our time.

The Shock Doctrine Naomi Klein 2010-04-01
The bestselling author of *No Logo* shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. *The Shock Doctrine* retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by

capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.
