Ambrose, bestselling author of Band of Brothers and D-Day, the inspiring story of the ordinary men of the U.S. army in northwest Europe from the day after D-Day until the end of the bitterest days of World War II. In this riveting account, historian Stephen E. Ambrose continues where he left off in his #1 bestseller D-Day. Citizen Soldiers opens at 0001 hours, June 7, 1944, on the Normandy beaches, and ends at 0245 hours, May 7, 1945, with the allied victory. It is biography of the US Army in the European Theater of Operations, and Ambrose again follows the individual characters of this noble, brutal, and tragic war. From the high command down to the ordinary soldier, Ambrose draws on hundreds of interviews to re-create the war experience with startling clarity and immediacy. Salt in the Rainbow Jonathan Muhiudeen 2014-10-18 Jonathan, a self-taught sailor from Malaysia, who left banking to sail around the world. The journey took 4 years, as Captain, Engineer and crew. This story is more than sailing, it covers his adventures from storms to shipwrecked to romance in short stores as he heads West from Asia into the setting sun. He is one of the few Asian circumnavigators that have written a book on what it's like to come from a nonwestern country as he sails into foreign ports. In today's world of 24/7 communication and electronic maps, Jonathan experiences of foreign ports, yachties from different cultures, engineering breakdowns not to mention a 'perfect storm' all via radio and phone boxes seems like a historical adventure, but it was only 25 years ago.

Special Duties Pilot John M Billings 2021-08-31 If there was ever a man who was born to fly, it is John M. Billings. He took his first plane ride in 1926, began taking piloting lessons in 1938, and joined the US Army Air Force in July 1942. After training he was assigned to fly Consolidated B-24 Liberator long-range bombers. He joined the 825th Bombardment Squadron of the 484th Bombardment Group. After flying fifteen daylight strategic bombing missions, Billings was selected for assignment to the 885th Bombardment Squadron (Heavy) (Special). As its designation suggests, the 885th was no regular bombing unit. The 885th specialized in flying top secret, low-altitude missions at night in support of the clandestine operations of the OSS and the Special Operations Executive. The unit's covert missions included parachuting OSS and SOE agents and supplies deep inside German territory. The most eventful and dangerous of Billings' thirty-nine secret missions with the 885th was his assignment in February 1945 to clandestinely insert a three-man OSS team, code-named Greenup, into Austria. The drop zone selected for the Greenup insertion was located on a glacier in a valley surrounded by mountains in the middle of the snow-covered Alps. Billings and his crew finally found the weather in the Alps clear enough to spot the drop zone, slip their unwieldy B-24 between the mountain peaks and descend to an altitude just a few hundred feet above the moonlit snow. On Billings' signal, the OSS agents parachuted right on target. The insertion of this OSS team was the inspiration for the feature film Inglorious Bastards. However, Brad Pitt's vengeful character was far removed from the leader of the Greenup team, Fred Mayer, who achieved success by infiltrating enemy ranks to gain vital intelligence. After the war, John Billings flew with Trans World Airlines and Eastern Airlines. He also flew more than 300 'Angel Flight' airlift missions which involve the specialized aerial transportation of critically ill medical patients. This is one man's story of a remarkable lifetime of flying, both in peace and in war.

We Who Are Alive and Remain Marcus Brotherton 2009-05-05 From Marcus Brotherton, co-author of Call of Duty, comes a new collection of untold stories from the Band of Brothers. They were the men of the now-legendary Easy Company. After almost two years of hard training, they parachuted into Normandy on D-Day and, later, Operation Market Garden. They fought their way through Belgium, France, and Germany, survived overwhelming odds, liberated concentration camps, and drank a victory toast in April 1945 at Hitler's hideout in the Alps. Here, revealed for the first time, are stories of war, sacrifice, and courage as experienced by one of the most revered combat units in military history. In We Who Are Alive and Remain, twenty men who were there and are alive today—and the families of three deceased others—recount the horrors and the victories, the bonds they made, the tears and blood they shed...and the brothers they lost.

Biggest Brother Larry Alexander 2006-05-02 The New York Times bestseller that tells the true story of the life of Major Dick Winters, the man who led the Band of Brothers in World War II. This is the riveting story of an ordinary man who became an extraordinary hero. After he enlisted in the army's arduous new Airborne division, Winters's natural combat leadership helped him rise through the ranks, but he was never far from his men. Decades later, Stephen E. Ambrose's Band of Brothers made him famous around the world. Full of never-before-published photographs, interviews, and Winters's candid insights, Biggest Brother is the fascinating, inspirational story of a man who became a soldier, a leader, and a living testament to the valor of the human spirit—and of America.

Mathematics in Victorian Britain photographer and broadcaster Foreword by Dr Adam Hart-Davis 2011-09-29 During the Victorian era, industrial and economic growth led to a phenomenal rise in productivity and invention. That spirit of creativity and ingenuity was reflected in the massive expansion in scope and complexity of many scientific disciplines during this time, with subjects evolving rapidly and the creation of many new disciplines. The subject of mathematics was no exception and many of the advances made by mathematicians during the Victorian period are still familiar today; matrices, vectors, Boolean algebra, histograms, and standard deviation were just some of the innovations pioneered by these mathematicians. This book constitutes perhaps the first general survey of the mathematics of the Victorian period. It assembles in a single source research on the history of Victorian mathematics that would otherwise be out of the reach of the general reader. It charts the growth and institutional development of mathematics as a profession through the course of the 19th century in England, Scotland, Ireland, and across the British Empire. It then focuses on developments in specific mathematical areas, with chapters ranging from developments in pure mathematical topics (such as geometry, algebra, and logic) to Victorian work in the applied side of the subject (including statistics, calculating machines, and astronomy). Along the way, we encounter a host of mathematical scholars, some very well known (such as Charles Babbage, James Clerk Maxwell, Florence Nightingale, and Lewis Carroll), others largely forgotten, but who all contributed to the development of Victorian mathematics.

Knights of the Golden Circle David C. Keehn 2013-04-15 In 1860, during their first attempt to create the Golden Circle, several thousand Knights assembled in southern Texas to "colonize" the northern Mexico. Due to insufficient resources and organizational shortfalls, however, that filibuster failed. Later, the Knights shifted their focus and began pushing for disunion, spearheading prosecession rallies, and intimidating Unionists in the South. They appointed regional military commanders from the ranks of the South's major political and military figures, including men such as Elkanah Greer of Texas, Paul J. Semmes of Georgia, Robert C. Tyler of Maryland, and Virginius D. Groner of Virginia. Followers also established allies with the South's rabidly prosecession "fire-eaters," which included individuals such as Barnwell Rhett, Louis Wigfall, Henry Wise, and William Yancy.

Faces of the Confederacy Ronald S. Coddington 2009-01-19 "Extensive research, fascinating characters . . . The author has done an admirable job of literally placing a face on the ordinary Confederate soldier." —The Journal of Southern History "The history of the Civil War is the stories of its soldiers," writes Ronald S. Coddington in the preface to Faces of the Confederacy. This book tells the stories of seventy-seven Southern soldiers—young farm boys, wealthy plantation owners, intellectual elites, uneducated poor—who posed for photographic portraits, cartes de visite, to leave with family, friends, and sweethearts before going off to war. Coddington, a passionate collector of Civil War-era photography, conducted a monumental search for these previously unpublished portrait cards, then unearthed the personal stories of their subjects, putting a human face on a war rife with inhuman atrocities. The Civil War took the lives of twenty-two of every hundred men who served. Coddington follows the exhausted survivors as they return home to occupied cities and towns, ravaged farmlands, a destabilized economy, and a social order in the midst of upheaval. This book is a haunting and moving tribute to those brave men. Like its companion volume, Faces of the Civil War: An Album of Union Soldiers and Their Stories, this book offers readers a unique perspective on the war and contributes to a better understanding of the role of the common soldier. "With his meticulous research and a journalist's eye for good stories, Ron Coddington has brought new life to Civil War photographic portraits of obscure and long-forgotten Confederates whose wartime experiences might otherwise have been lost to history." —Bob Zeller, cofounder and president of the nonprofit Center for Civil War Photography

Stuart entrusted a secret album to Laura Ratcliffe, a young girl in Fairfax Country, 'as a token of his high appreciation of her patriotism, admiration of her virtues, and a pledge of his lasting esteem.' Radcliffe's book contains four poems and forty undated signatures: twenty-six of Confederate officers and soldiers and fourteen of loyal Confederate civilians. In A Southern Spy in Northern Virginia, Charles V. Mauro uncovers the mystery behind this album, identifying who the soldiers were and when they could have signed its pages. Easy Company Soldier Don Malarkey 2008-05-13 Elite paratrooper Sgt. Don Malarkey takes us not only into the World War II battles fought from Normandy to Germany, but into the heart and mind of a soldier who lost his best friend during the nightmarish engagement at Bastogne. Drafted in 1942, Malarkey arrived at Camp Toccoa in Georgia and was one of the one in six soldiers who earned their Eagle wings. He went to England in 1943 to provide cover on the ground for the largest amphibious military attack in history: Operation Overlord. In the darkness of D-day morning, Malarkey parachuted into France and within days was awarded a Bronze Star for his heroism in battle. He fought for twenty-three days in Normandy, nearly eighty in Holland, thirty-nine in Bastogne, and nearly thirty more in and near Haugenau, France, and the Ruhr pocket in Germany. Easy Company Soldier is his dramatic tale of those bloody days fighting his way from the shores of France to the heartland of Germany, and the epic story of how an adventurous kid from Oregon became a leader of men.
