**Beyond Narratives of Victim and Villain** Alexandra Lutnick 2013 Young people involved in the sex trade have existed throughout history. Following passage of the 2000 Trafficking Victims Protection Act (TVPA) by the U.S. Congress, 22 U.S.C. 7102(8), U.S. citizens and lawful permanent residents who are under the age of 18 and trading sex in any capacity are now considered domestic minor victims of human trafficking. With the TVPA's passage, public awareness and services for victims of human trafficking increased. However, strategies to meet the needs of these young people are in the early stages of development. Knowledge gaps exist about the characteristics of young people who trade sex, what services these young people would like to receive, and the challenges of service provision. This

study focused on three agencies that received funding to work with domestic minor victims of sex trafficking: the SAGE Project, Inc. in San Francisco, the Streetwork Project at Safe Horizon in New York, and the STOP-IT Program at Salvation Army in Chicago. This study addressed the following questions through a secondary analysis of quantitative and qualitative data: (1) What are the characteristics of young people who trade sex?; (2) What services do the young people request and what do they receive?; and (3) What are the challenges case managers experience in their work with this population?

*Sex Trafficking and Commercial Sexual Exploitation* Lara B. Gerassi, PhD, LCSW 2017-09-28 This is the first comprehensive text to critically analyze the current research and best practices for working with children,

adolescents, and adults involved in sex trafficking and commercial sexual exploitation (CSE). With a unique, research-based focus on practice, the book synthesizes the key areas related to working with victims of sex trafficking/ CSE including prevention, identification, practice techniques, and program design as well as suggested interagency, criminal justice, and legislative responses. Best practices are examined through an intersectional, trauma-informed lens that adheres to principles of cultural competency. Highlights include: Integrates a trauma informed lens in practice, program design, and interagency responses. Uses an intersectional approach to examine identity-based oppression such as race, class, sex, LGBTQ identities, age, immigrant status, and intellectual disabilities. Highlights the importance of cultural competency in practice and program design, prevention and outreach efforts, and interagency and criminal justice system responses. Reviews the different types of sex trafficking and CSE, the physiological and psychological effects, various risk factors, and the distinct needs of survivors to encourage practitioners to tailor interventions to the specific needs of each client. Examines the role of social workers and practitioners in interagency, legislative, and criminal justice responses to sex trafficking. Takes a broad societal perspective by examining the role of macro-level risk factors facilitating sex trafficking victimization. The book analyzes the commonly reported

indicators of sex trafficking/CSE, how to conduct a screening with potential victims, and direct practice techniques with various populations including evidence-based trauma treatments. Other chapters guide the reader in implementing trauma-informed programming in a variety of organizational settings, advocating for sex trafficking and CSE survivors within the criminal justice system, and implementing effective prevention and outreach programs in schools and community organizations. Intended as a text for upper division courses on sex or human trafficking, interventions with women, trauma interventions, violence against women, or gender and crime taught in social work, psychology, counseling, and criminal justice, this book is also an ideal resource for practitioners working with victims of sex trafficking and CSE in a variety of settings including child protective services, the criminal justice system, healthcare, schools, and more.

**Preventing Child Trafficking** Jonathan Todres 2019-12-17 Providing readers with advice geared toward better understanding trafficking's root causes, this revelatory book concludes by mapping out a "public health toolkit" that can be used by anyone who is interested in preventing child trafficking, from policymakers to professionals who work with children.

*Ethnography for Designers* Galen Cranz 2016-02-26 Ethnography for Designers teaches architects and designers how to listen actively to the knowledge people have about their own culture. This approach gives

structure to values and qualities. It does this by noting the terms and underlying structure of thought people use to describe aspects of their culture. By responding to underlying cognitive patterns, the architect can both respond to the user and interpret creatively. Thus, ethno-semantic methods can help designers to enhance their professional responsibility to users and, at the same time, to feel fulfilled creatively. This book is a practical guide for those teaching social factors and social research methods to designers and for those using these methods in practice.

**Domestic Minor Sex Trafficking** Alexandra Lutnick 2016-01-12 The domestic sex trafficking of minors is a problem of growing concern yet little critical attention. This book analyzes the forces behind the sex-trafficking industry in the United States and provides a much-needed reference for practitioners. It adopts a holistic approach, pursuing a nuanced exploration of these young people's experiences, their treatment, and outside efforts to combat sex trafficking. The book features interviews with service providers and experts, and incorporates recent research, thereby mapping the

complex factors associated with young people's involvement in trading sex and the social connections that facilitate their behavior. It considers the experiences of both those who "choose" sex work and those who are forced into it by circumstances or third parties, and it discusses the networks of friends and close acquaintances who introduce newcomers to the trade. In addition, it takes a hard look at how local and federal responses to trafficking increase young people's vulnerability to trading sex. Urging policymakers and practitioners to move beyond the simple framework of "rescuing" victims and "punishing" villains, this book calls for policies and programs that focus on the failure of social and cultural systems and respond better to the young people caught in this web.

**The Routledge International Handbook of Social Work and Sexualities** SJ Dodd 2021-07-19 This Handbook is the first volume to address the dynamic issues related to sexuality from a social work perspective by providing a comprehensive, current and international overview of issues related to sexuality. It explains how each issue is important and critically discusses the leading views in the area, providing diverse and inclusive perspectives from leading scholars in the field. Divided into seven parts: Structural Context Sexual Identities Sexuality through the Lifespan Health, Mental Health, and Sexuality Sexual Health and Well-Being: Pleasure, Desire, and Consent Practice Issues Regulating Sexuality: Historical and

Contemporary Legislation It will be of interest to students, academics, researchers, and practitioners of social work and related health and social care subjects, and is particularly relevant for practice courses as well as courses on Human Growth and Development and Human Behavior in the Social Environment.

#### **An International Perspective on Contemporary Developments in**

**Victimology** Janice Joseph 2020-06-29 This festschrift in honor of the work and legacy of Dr. Marc Groenhuijsen provides an international and holistic overview of recent developments in victimology, taking a global scope but grounded in everyday experiences of victims. Its multidisciplinary perspective reflects a range of approaches and practices in victimology, including contributions from the fields of social work, criminology, sociology, psychology, and law. Firstly, the volume introduces new perspectives in victimology, and then analyzes different forms of victimization in countries worldwide. It gives special attention to victims' rights and participation in the criminal justice system, detailing victim-centered approaches to justice through practices such as restorative justice and restitution. Highlighting the growth and development of victimology from a specialization in criminology to an academic discipline in its own right, this book reflects the range of approaches and depth of scholarship in the field. This will be an essential resource to students of

victimology, researchers, policy makers, and victim's advocates.

#### *Prostitution, Trafficking, and Traumatic Stress* Melissa Farley, PhD

2012-09-10 *Prostitution, Trafficking, and Traumatic Stress* offers the reader an analysis of prostitution and trafficking as organized interpersonal violence. Even in academia, law, and public health, prostitution is often misunderstood as "sex work." The book's 32 contributors offer clinical examples, analysis, and original research that counteract common myths about the harmlessness of prostitution. *Prostitution, Trafficking, and Traumatic Stress* extensively documents the violence that runs like a constant thread throughout all types of prostitution, including escort, brothel, trafficking, strip club, pornography, and street prostitution. Prostitutes are always subjected to verbal sexual harassment and often have a lengthy history of trauma, including childhood sexual abuse and emotional neglect, racism, economic discrimination, rape, and other physical and sexual violence. International in scope, the book contains cutting-edge contributions from clinical experts in traumatic stress, from attorneys and advocates who work with trafficked women, adolescents, and children and also prostituted women and men. A number of chapters address the complexity of treating the psychological symptoms resulting from prostitution and trafficking. Others address the survivor's need for social supports, substance abuse treatment, peer support, and culturally

relevant services. To stay up-to-date on this powerful subject, visit the “Traffick Jamming” blog at <http://www.prostitutionresearch.com/blog>.

Prostitution, Trafficking, and Traumatic Stress examines: The connections between prostitution, incest, sexual harassment, rape, and domestic violence Clinical symptoms common among those in prostitution, including dissociation, posttraumatic stress disorder, depression, and substance abuse Peer support programs for women escaping prostitution Culturally relevant services for women escaping prostitution The connection between prostitution and trafficking, including trafficking from Mexico to the United States, and prostitution of adolescents in Cambodian brothels Online prostitution How gay male pornography harms gay men Accessing public assistance funds for survivors of prostitution Arguments against legalizing or decriminalizing prostitution From the editor's Preface: Prostitution is to the community what incest is to the family. Slavery, at its height, was normalized in the United States as unpleasant but inevitable, yet it is now considered to be an institution that violated human rights. Perhaps we will at some point in the future look back on prostitution/trafficking with a similar historical perspective. It is my hope that this book will assist the reader in understanding prostitution and trafficking and in how to help women and children escape it.

**Child Trafficking in the EU** Pete Fussey 2017-03-27 Drawing on empirical

research conducted with police in the UK and Romania, *Child Trafficking in the EU* explores the way in which the ‘who’ and ‘how’ we police and protect as trafficker and trafficked is related to Western notions of innocence, guilt, childhood, and of the status of ‘deserving’ victim. This book progresses a new theoretical space by linking its analysis to sociologies of mobility, marginalisation and the pluralised rendering of criminalised and victimised ‘others’. This book explores core contextual themes surrounding the commission, response to and origins of child trafficking, and presents empirical research into the investigation of child trafficking within the EU, situating the authors’ findings against broader social, cultural, political, policy and judicial contexts. The authors conclude with a synthesis of the key themes and arguments to situate pan-EU child trafficking within political, criminal justice, organisational, cultural, and social contexts, and consider the degree to which such criminality can be adequately addressed by current and emerging approaches given such enduring and persistent structural issues. This book will be of interest to scholars and students within the fields of criminology, sociology, political science and law, as well as a key resource for practitioners and activists.

**Nobody's Girl** Barbara Amaya 2015 In 1972, Barbara Amaya was 16 years old, leading a life far from a typical teenager and why she was Nobody's Girl. She had been sent to three detention centers, lived on the streets of,

first, Washington DC and then New York City. Amaya was forced to work as a prostitute and was hooked on heroin. The ten years she spent as a victim in the world of human trafficking is just the beginning of her story.

The SAGE Handbook of Human Trafficking and Modern Day Slavery

Jennifer Bryson Clark 2018-12-10 Millions of people around the world are forced to work without pay and under threat of violence. These individuals can be found working in brothels, factories, mines, farm field, restaurants, construction sites and private homes: many have been tricked by human traffickers and lured by false promises of good jobs or education, some are forced to work at gunpoint, while others are trapped by phony debts from unscrupulous moneylenders. The SAGE Handbook of Human Trafficking and Modern-Day Slavery provides a comprehensive, interdisciplinary and global look at the diverse issues surrounding human trafficking and slavery in the post-1945 environment. Covering everything from history, literature and politics to economics, international law and geography, this Handbook is essential reading for academics and researchers, as well as for policy-makers and non-governmental organisations

**Human Trafficking** Noël Bridget Busch-Armendariz 2017-03-31 Human Trafficking: Applying Research, Theory, and Case Studies is a practical, interdisciplinary text that draws from empirically grounded scholarship,

survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking.

Throughout the book, authors Noël Bridget Busch-Armendariz , Maura Nsonwu, and Laurie Cook Heffron address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

**Eradicating Human Trafficking: Culture, Law and Policy** Gabriela Curras

DeBellis 2021-12-13 With over 40 million people still enslaved around the world, this book takes a closer look at the role of culture in society and how certain practices, beliefs or behaviors are fueling human trafficking beyond what the law can curtail.

*Sex Trafficking* Siddharth Kara 2017-08-29 “The best book ever written on human trafficking for sexual exploitation”—the basis for the feature film, *Trafficked*, starring Ashley Judd (Kevin Bales, president of Free the Slaves). Every year, hundreds of thousands of women and children are

abducted, deceived, seduced, or sold into forced prostitution. These trafficked sex slaves form the backbone of one of the world's most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such "processing," and can be repeatedly "consumed." In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. "Sex trafficking is more of a problem than most people realize. Read this well-

written book and find out."—Kirk Douglas

*Paths to the Prevention and Detection of Human Trafficking* Andrews, Sharon K. 2022-06-10 Much has already been published to better understand the problems associated with human trafficking such as why it occurs, where it occurs, and the horrendous tolls it takes on individuals and society. However, further study on the latest innovative ideas, research, and real-world efforts towards the detection and prevention of human trafficking analysis as well consideration of the success or failure of the current approaches is required in order to understand the necessary future improvements and how to best achieve them. *Paths to the Prevention and Detection of Human Trafficking* presents innovative and potentially transformational concepts and research results that discuss current, or developing, approaches that address the identification, reporting, and prevention of human trafficking, including important identified enablers of trafficking. Covering a range of topics such as machine learning and child exploitation, this reference work is ideal for policymakers, government officials, hospital administrators, researchers, academicians, scholars, practitioners, instructors, and students.

*The Slave Across the Street* Theresa L. Flores 2019-08-17 \*\*\* Wall Street Journal and USA Today best seller! \*\*\* While more and more people each day become aware of the dangerous world of human trafficking, most

people in the U.S. still believe this is something that happens to foreign women, men, and children--not something that happens to their own. In this powerful true story, Theresa L. Flores shares how her life as an All-American, blonde-haired 15-year-old teenager who could have been your neighbor was enslaved into the dangerous world of sex trafficking while living in an upper-middle class suburb of Detroit. Her story peels the cover off of this horrific criminal activity and gives dedicated activists as well as casual bystanders a glimpse into the underbelly of trafficking. And it all happened while living at home without her parents ever knowing about it. Involuntarily involved in a large underground criminal ring, Ms. Flores endured more as a child than most adults will ever face their entire lives. In this book, Ms. Flores discusses how she healed the wounds of sexual servitude and offers advice to parents and professionals on preventing this from occurring again, educating and presenting significant facts on human trafficking in modern day America.

**Human Trafficking** Joan Reid 2017-10-02 Human trafficking involves the violation of societal norms and often activates criminal justice responses including police, courts, juvenile justice, and child protective services. Due to the complex nature of human trafficking, some behaviours that facilitate human trafficking cannot be easily identified and assigned to conventional

crime categories. As a result of this complexity, criminologists have yet to fully explore the problem of human trafficking. In recent years, however, there has been a growing interest among criminologists in human trafficking and its intersections with the criminal justice system and overlap with conventional types of crime. This edited collection of research aims to underscore these intersections in order to further improve the description, explanation, and prevention of human trafficking. Research contained in this book provides a step forward by describing police perceptions and responses to human trafficking while also providing insight into victims with reports on victim perceptions of their treatment by the police. Most notably, this volume has moved research on human trafficking beyond descriptive frequencies to sophisticated multivariate analyses. This book was originally published as a special issue of the Journal of Crime and Justice.

**Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States** National Research Council 2013-11-12 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. **Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the**

United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

**Art Therapy Treatment with Sex Trafficking Survivors** Mary K. Kometiani  
2019-10-16 This groundbreaking book introduces and researches art therapy as a creative and effective treatment for the sensitive and

pertinent issue of human sex trafficking. Rich empirical examples and best practices are provided through the contributors' expertise and knowledge in the field of art therapy. Art therapy facilitates emotional catharsis, a personal sense of worth and empowerment through making choices; supports connection to others and the inner self; resolves trauma, grief, and shame; and provides hope for the future and recovery. This book explores art therapy interventions and outcomes through detailed case studies for sex trafficking survivors in the United States, India, and Nepal, and includes international recommendations for survivor treatment and recovery, as well as staff support programming. Professional helpers and learners from mental health, social services, medical care, and those who work with trafficking and sexual abuse survivors will benefit from this guide.

Citizenship on the Edge Nancy J. Hirschmann 2022-01-04 What does it mean to claim, two decades into the twenty-first century, that citizenship is on the edge? The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand, and sex, race, and gender on the other. Who "counts" as a citizen in today's world, and what are the mechanisms through which the rights, benefits, and protections of liberal citizenship are differentially bestowed upon diverse groups? What are the relationships between global

economic processes and political and legal empowerment? What forms of violence emerge in order to defend and define these rights, benefits, and protections, and how do these forms of violence reflect long histories? How might we recognize and account for the various avenues through which people attempt to make themselves as political subjects? Citizenship on the Edge approaches these questions from multiple disciplines, including Africana Studies, anthropology, disability studies, film studies, gender studies, history, law, political science, and sociology. Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U.S. and throughout the world. They give a sense of the breathtaking range of the ways that citizenship is controlled, repressed, undercut, and denied at the same time as they outline people's attempts to claim citizenship in ways that are meaningful to them. From university speech policies, to labor and immigration policies, to a rethinking of the security theatre, to women's empowerment in the family and economy and a rethinking of marriage and the family, we see slivers of possibility for a more inclusive and less hostile world, in which citizenship is no longer so in doubt, so on the edge, for so many. As a whole, the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times, and in relation to dynamic

struggle. Contributors: Erez Aloni, Ange-Marie Hancock Alfaro, Nancy J. Hirschmann, Samantha Majic, Valentine M. Moghadam, Michael Rembis, Tracy Robinson, Ellen Samuels, Kimberly Theidon, Deborah A. **Youth who Trade Sex in the U.S.** Carisa R. Showden 2018 When cases of domestic minor sex trafficking (DMST) by predatory men are reported in the media, it is often presented that a young, innocent girl has been abused by bad men with their demand for sex and profit. This narrative has shaped popular understandings of young people in the commercialized sex trades, sparking new policy responses. However, the authors of *Youth Who Trade Sex in the U.S.* challenge this dominant narrative as incomplete. Carisa Showden and Samantha Majic investigate young people's engagement in the sex trades through an intersectional lens. The authors examine the dominant policy narrative's history and the political circumstances generating its emergence and current form. With this background, Showden and Majic review and analyze research

published since 2000 about young people who trade sex since 2000 to develop an intersectional "matrix of agency and vulnerability" designed to improve research, policy, and community interventions that center the needs of these young people. Ultimately, they derive an understanding of the complex reality for most young people who sell or trade sex, and are committed to ending such exploitation.

Human Trafficking Is a Public Health Issue Makini Chisolm-Straker

2017-01-26 This clear-sighted reference examines the public health dimensions of labor and sex trafficking in the United States, the scope of the crisis, and possibilities for solutions. Its ecological lifespan approach globally traces risk and protective factors associated with this exploitation, laying a roadmap towards its prevention. Diverse experts, including survivors, describe support and care interventions across domains and disciplines, from the law enforcement and judicial sectors to community health systems and NGOs, with a robust model for collaboration. By focusing on the humanity of trafficked persons, a public health paradigm broadens our understanding of and ability to address trafficking while adding critical direction and resources to the criminal justice and human rights structures currently in place. Not in My Town Dillon Burroughs 2011-06-01 Slavery still exists--here.

Tens of millions of humans live in bondage worldwide, tens of thousands in the US. As seen recently on Fox News, Dillon Burroughs and Charles Powell bring awareness about what's happening in our nation and world.

The book and DVD teach about: - Human trafficking - Sexual exploitation - Forced labor - Agricultural slavery Not in My Town answers questions and promotes discussion about the slavery system that crisscrosses Atlanta, Orlando, Las Vegas, New York, California, Texas, North Carolina, Haiti, Amsterdam, India, Cambodia, and beyond. The authors' gripping journey shocks but also motivates and provides resources to equip new

generations of abolitionists from all corners of society and diverse worldviews who share the common call to stop injustice.

**Adolescence, Risk and Resilience** John Coleman 2007-12-17 Adolescence is often portrayed as an age of particular risk. Adolescents are not only considered a risk to themselves, but also to the rest of society. As a society, we are nervous of them, and consider them vulnerable, yet the seeds of successful and independent adult life are laid down in adolescence, and they need all the help and support that they can get at a challenging time. *Adolescents at Risk: Against the Odds* looks in depth at some of the key risks faced by adolescents, and at some of the ways in which they can be alleviated. The book is structured according to the operational challenges the research informs.

*Runaway Girl* Carissa Phelps 2013-06-25 “Riveting . . . A genuinely important book that casts the problem of sex trafficking in America into stunning, heartbreaking relief.” (Kirkus Reviews) A School Library Journal Best Adult Book for Teens A Joan F. Kaywell Award Finalist from the Florida Council of Teachers of English Carissa Phelps was a runner. By the time she was twelve, she had run away from home, dropped out of school, and fled blindly into the arms of a brutal pimp. Even when she escaped him, she could not outrun the crushing inner pain of abuse, neglect, and abandonment. With little to hope for, she expected to end up in prison, or worse. But then her life was transformed through the unexpected kindness of a teacher and a counselor. Through small miracles, Carissa accomplished the unimaginable, graduating from UCLA with both a law degree and an MBA. She left the streets behind, yet found herself back, this time working to help homeless and at-risk youth discover their own paths to a better life. Like the multimillion-copy bestseller *The Glass Castle*, this memoir moves us through the power of its unflinching

candor and generosity.

*Stolen* Katariina PhD Rosenblatt 2014-09-30 Sex trafficking is currently a hot news topic, but it is not a new problem or just a problem in "other" countries. Every year, an estimated 300,000 American children are at risk of being lured into the sex trade, some as young as eight years old. It is thought that up to 90 percent of victims are never rescued. *Stolen* is the true story of one survivor who escaped--more than once. First recruited while staying with her family at a hotel in Miami Beach, Katariina Rosenblatt was already a lonely and abused young girl who was yearning to be loved. She fell into the hands of a confident young woman who pretended friendship but slowly lured her into a child prostitution ring. For years afterward, a cycle of false friendship, threats, drugs, and violence kept her trapped. As Kat shares her harrowing experiences, readers will quickly realize the frightening truth that these terrible things could have happened to any child--a neighbor, a niece, a friend, a sister, a daughter. But beyond that, they will see that there is real hope for the victims of sex trafficking. *Stolen* is more than a warning. It is a celebration of survival that will inspire.

**Global Report on Trafficking in Persons 2020** United Nations 2021-04-30

The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

**Quitting the Sex Trade** Amber Horning 2021-05-14 This anthology of original research studies focuses on why and how sex workers and pimps quit the sex trade. There is an extensive literature on 'desistance' with different theories explaining why people quit crime. However, with a few notable exceptions, researchers to date have not focused on desistance among pimps and sex workers. These studies explore a spectrum of quitting the sex trade from voluntarily stopping, 'drifting,' and retiring; to intervention-based or coerced stopping due to influences and impositions

by programs and/or by specialized courts. This book provides insight into the meaning of this work; how people in the sex trade view their engagement in licit/illicit spheres; and it will inform providers who interface with people from these communities regarding how to support desistance. Further this book may help those engaged in emerging topics related to the sex trade, including: (1) global trends in sex trade decriminalization and/or human trafficking criminalization, (2) the recent emergence of human trafficking intervention courts in the USA, and (3) the development (and impact) of new laws, policies, and intervention programs designed to reduce human trafficking (globally, regionally, country level) and/or more localized efforts to support desistance among participants in the sex trade. The book will be of interest to academics, researchers and advanced students of Criminology, Sociology, Law, Policy, and Psychology. It was originally published as a special issue in the journal *Victims & Offenders*.

**Domestic Minor Sex Trafficking** Susan C. Mapp 2016-06-29 Human trafficking is a thriving business around the world. Although attention had been focused initially on those who were trafficked over international borders for sexual exploitation, awareness has slowly increased of the trafficking of US citizens within its own borders, including its children. However, due to the still-evolving research on this issue, and the subsequent reliance on mass media, there is a lack of accurate knowledge

about this crime that this book seeks to address. Pulling together scholarly information from diverse fields including social work, psychology, and biology, Susan Mapp explores the particular risk factors (such as poverty, child maltreatment, and being a sexual minority) that place children at higher risk for being trafficked. The different methods of Domestic Minor Sex Trafficking (DMST)--pimp-controlled, gang-controlled, familial, and survival - are explained, including how children come to be involved in them and the mechanisms by which they occur. Assisting those being trafficked to leave the life is a difficult process, and this book explains why. It is important for everyone to act on what can be done to fight this crime; suggestions for professionals, as well as "everyday citizens," are offered, together with a list of resources.

**Contemporary Slavery** Annie Bunting 2018-05-15 "This book looks at recent efforts to combat contemporary slavery worldwide and explores how the history and iconography of slavery has been invoked to support a series of government interventions, activist projects, legal instruments, and rhetorical performances"--

**Social Work Practice with Survivors of Sex Trafficking and Commercial Sexual Exploitation** Andrea J. Nichols 2018-04-03 As awareness and identification of sex trafficking and exploitation have grown, so has the need for improved social work responses. In this volume, expert

practitioners, survivors, and researchers model the best practices for working with this population, using case examples and illustrative guides. Chapters cover the common challenges of working with trafficked and exploited people and how to overcome them, including topics like runaway youth, trauma-bonds, system-level challenges, and resource scarcity. Intended as a teaching tool for students or a supplementary manual for organizations, this book emphasizes interventions and treatments, working with specific populations, programmatic design recommendations, preventative work, and outreach interventions. Researchers, students, and practitioners will find a comprehensive guide to the emerging field of practice with sex trafficking and exploitation survivors.

**Life Interrupted** Denise Brennan 2014-02-19 *DIV*Life Interrupted introduces us to survivors of human trafficking who are struggling to get by and make homes for themselves in the United States. Having spent nearly a decade following the lives of formerly trafficked men and women, Denise Brennan recounts in close detail their flight from their abusers and their courageous efforts to rebuild their lives. At once scholarly and accessible, her book links these firsthand accounts to global economic inequities and under-regulated and unprotected workplaces that routinely exploit migrant laborers in the United States. Brennan contends that today's punitive immigration policies undermine efforts to fight trafficking. While many

believe trafficking happens only in the sex trade, Brennan shows that across low-wage labor sectors—in fields, in factories, and on construction sites—widespread exploitation can lead to and conceal forced labor. Life

Interrupted is a riveting account of life in and after trafficking and a forceful call for meaningful immigration and labor reform. All royalties from this book will be donated to the nonprofit Survivor Leadership Training Fund administered through the Freedom Network.
