Otway-Ruthven 2008-10-30 Miss Otway-Ruthven examines the history of the office of the King's Secretary from 1377, the first appearance of a King's Secretary, to 1509, demonstrating its rise from the comparative unimportance of a confidential clerkship to a position worthy of the attention of a bishop and a fitting instrument of Tudor Government.

Kings and Priests Uche Anizor 2014-05-06 The history of modern biblical interpretation is checkered with attempts to rethink and resituate readers theologically and ethically. At least two tendencies emerge in these remedial proposals, both of which animate this project: (1) many accounts privilege either divine action (theology) or human, ecclesial response (ethics); (2) few proposals have availed themselves of the potential hermeneutical resources of a more extensive biblical theology. This study offers a theological and ethical account of Christian readers of Scripture--one that brings together these two apparently divergent poles--through the deployment of a biblical theological motif: royal priesthood. The designation of the people of God as a royal priesthood, conditioned and informed by the offices of king and priest, carries with it themes that frame the hermeneutical situation in such a way that accounts well for the integral relation of divine agency and ecclesial response, theology and ethics.

The Value of Drawing Instruction in the Visual Arts and Across Curricula Seymour Simmons III 2021-03-29 By applying philosophical and historical perspectives to drawing instruction, this volume demonstrates how diverse teaching methods contribute to cognitive and holistic development applicable within and beyond the visual arts. Offering a new perspective on the art and science of drawing, this text reveals the often-unrecognized benefits that drawing can have on the human mind, and thus argues for the importance of drawing instruction despite,

and even due to contemporary digitalization. Given the predominance of visual information and digital media, visual thinking in and through drawing may be an essential skill for the future. As such, the book counters recent declines in drawing instruction to propose five Paradigms for teaching drawing – as design, as seeing, as experience and experiment, as expression, and as a visual language – with exemplary curricula for pre-K12 art and general education, pre-professional programs across the visual arts, and continuing education. With the aid of instructional examples, this volume dispels the misconception of drawing as a talent reserved for the artistically gifted and posits it as a teachable skill that can be learned by all. This text will be of primary interest to researchers, scholars, and doctoral students with interests in drawing theory and practice, cognition in the arts, positive psychology, creativity theory, as well as the philosophy and history of arts education. Aligning with contemporary trends such as Design Thinking, STEAM, and Graphicacy, the text will also have appeal to visual arts educators at all levels, and other educators involved in arts integration.

[The Holiness Revival of the Nineteenth Century](#) Melvin E. Dieter 1996-04-09 This new edition expands and updates the only general interpretation of the rise and influence of perfectionist revivalism in America and Europe. Fifteen years of expanding research on the holiness movement reinforce this volume's continuing seminal value to cultural and social research. The new concluding essay describes the history of the revival through the turn of the century. This book expands our understanding of the fragmentation and coalescence of American religion by analyzing the factors which created numerous new holiness denominations. Dieter also outlines the historical and theological factors that separate this largely Wesleyan and Methodist wing of evangelicalism from the fundamentalism of Reformed evangelicals. The identification of such nuances will prove especially helpful to those struggling with the extreme diversity in American religion, especially in evangelicalism. For students and scholars of American religious movements as well as students of the feminist, temperance, abolitionist, and populist movements in American society.
