No Wonder My Parents Drank Jay Mohr 2010-05-11 YOU’LL NEVER SLEEP IN THIS TOWN AGAIN From Saturday Night Live to stand-up, from a blockbuster film career to the star of CBS’s hit television show Gary Unmarried, Jay Mohr is one of the funniest people in comedy today. Now, in this down and dirty tale of modern fatherhood, Mohr shares his stories as a first-time parent. No Wonder My Parents Drank reveals the details behind Mohr’s humiliating test-tube conception attempts and then recounts the trauma of not only having to keep this child alive, but having to spend time alone with him! He waxes poetic about dirty diapers; spins theories on spanking; and mulls over the more hidden advantages of parenthood, like carpool lane access, carte blanche to use the ladies restroom, and an alibi for missing family dinners. Mohr describes, in painfully funny detail, the bizarre situations that all parents inevitably face but can never prepare for (such as when his kid discovered his dog’s rear end) as well as moments of pure joy like taking his son to his first baseball game. Mohr reports on the hilarious wisdom that his son, Jackson, has taught him—like why it’s fun to play “Kissy Boy” with the other boys at recess, how important sunscreen is for avoiding a “sunborn,” and how awesome it is to get a “rainbow belt” in karate. Riotously acerbic and refreshingly honest, No Wonder My Parents Drank casts the very funny Jay Mohr with an even funnier mini-me sidekick as a supporting character in a little comedic love story that every person who either is a parent or has a parent will find delightful.

Please Don't Tell My Parents Dawson McAllister 1992 Uses a Christian perspective to address such adolescent problems as dysfunctional homes, suicide, abuse, sex, and substance abuse.

My Parents Were Awesome Elliot Glazer 2011-04-05 NEWSFLASH: Your mom and dad weren't always parents. They used to be people—and they were awesome They bathed you. They fed you. They raised you to become the person you are today. Your parents are an integral part of your story. But guess what? They have a story too—one that started long before you entered the picture. Please Don't Tell My Parents I'm Queen of the Dead Richard Roberts 2022-01-04 Avery Special is the world's only living necromancer, and she's pretty bad at it. She also just moved to L.A., where trouble has been waiting for a necromancer. Trouble that doesn't care how strong she is, or that she's only fifteen. Monsters, magical artifacts, occultists and television producers only care that a real necromancer is back. There are definitely upsides. Chris, Annie, Sue, and Peggy have their own creepy super powers and are the best friends a girl could hope to make on her first day in a new city. Her Pudgy Bunny coloring book can teach her more than a stack of grimoires. Her ghostly ancestors are so eager to help it's annoying. Not that she has time for any of that, because Chris and Sue are both in love with her.

My Parents: An Introduction / This Does Not Belong to You Aleksandar Hemon 2019-06-11 Two books in one in a flip dos-à-dos format: The story of Aleksandar Hemon's parents' immigration from Sarajevo to Canada and a book of short memories of the author's family, friends, and childhood in Sarajevo In My Parents, Aleksandar Hemon tells the story of his parents' immigration to Canada—of the lives that were upended by the war in Bosnia and siege of Sarajevo and the new lives his parents were forced to build. As ever with his work, he portrays both the perfect, intimate details (his mother's lonely upbringing, his father's fanatical beekeeping) and a sweeping, heartbreaking history of his native country. It is a story full of many Hemons, of course—his parents, sister, uncles, cousins—and also of German occupying forces, Yugoslav partisans, royalist Serb collaborators, singing Ukrainians, and a few befuddled Canadians. My Parents is Hemon at his very best, grounded in stories lovingly polished by retelling, but making them exhilarating and fresh in writing, summoning unexpected laughs in the midst of the heartbreaking narratives. This Does Not Belong to You, meanwhile, is the exhilarating, freewheeling, unabashedly personal companion to My Parents—a perfect dose of Hemon at his most dazzling and untempered in a series of beautifully distilled memories and observations and explosive, hilarious, poignant miniatures. Presented dos-à-dos with My Parents, it complements and completes a major work by a major writer. In the words of Colum McCann, “Aleksandar Hemon is, quite frankly, the greatest writer of our generation.” Hemon has never been better than here in these pages. And the moment has never been more ready for his voice, nor has the world ever been more in need of it.

Between Them Richard Ford 2017-05-02 From American master Richard Ford, a memoir: his first work of nonfiction, a stirring narrative of memory and parental love How is it that we come to consider our parents as people with rich and intense lives that include but also exclude us? Richard Ford's parents—Edna, a feisty, pretty Catholic-school girl with a difficult past; and Parker, a sweet-natured, soft-spoken traveling salesman—were rural Arkansans born at the turn of the twentieth century. Married in 1928, they lived “alone together” on the road, traveling throughout the South. Eventually they had one child, born late, in 1944. For Ford, the questions of what his parents dreamed of, how they loved each other and loved him become a striking portrait of American life in the mid-century. Between Them is his vivid image of where his life began and where his parents' lives found their greatest satisfaction. Bringing his celebrated candor, wit, and intelligence to this most intimate and mysterious of landscapes—our parents' lives—the award-winning storyteller and creator of the iconic Frank Bascombe delivers an unforgettable exploration of memory, intimacy, and love.

Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the familyâ€“which includes all primary caregiversâ€“are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotioms, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Collapse of Parenting Leonard Sax 2015-12-29 In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world In The Collapse of Parenting, internationally acclaimed author Leonard Sax argues that rising levels of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.

Hiroshima John Hersey 2020-06-23 “A new edition with a final chapter written forty years after the explosion.” You're Not Listening Kate Murphy 2020-01-07 When was the last time you listened to someone, or someone really listened to you? “If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor.” -Adam Grant, #1 New York Times bestselling author of Originals and Give and Take **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** “An essential book for our times.” -Lori Gottlieb, New York Times bestselling author of Maybe You Should Talk to Someone At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, You're Not Listening is to listening what Susan Cain's Quiet was to introversion. It's time to stop talking and start listening.

Don't Tell Mummy Toni Maguire 2008 This heart-wrenching memoir from Toni Maguire tells the deeply moving story of an idyllic childhood that masked a terrible truth. Underneath her mother's gentility and her father's roguish charm lay horrifying secrets, which eventually led to their only child's near destruction. The first time her father made an improper advance on Toni, she was six years old. Her father warned her not to tell her mother, or anyone else, because they would blame her and wouldn't love her any more. It had to remain ‘our secret.’ When she finally built up the courage to tell her mother what had happened, she was told never to speak of the matter again. With no one to turn to, isolated and alone in rural Ireland, the abuse continued unhindered. At fourteen Toni fell pregnant by her father, and when her state was discovered she was made to have a late abortion which almost killed her. The truth of her childhood could no longer be kept hidden but, just as her father predicted, Toni found herself judged and rejected by her family, teachers and friends. The blame and anger she was treated with only worsened when her father was sent to prison as a result of his actions. This is the compelling story of her struggle to put the ghost of her childhood to rest, and emerge ultimately triumphant.

Please Don't Tell My Parents I Have a Nemesis Richard Roberts 2019-11-06 It's summertime for supervillains! Or maybe not, because for Penelope Akk, there is still one foe she has yet to defeat: her own reputation as Bad Penny. It's been a fun ride: fighting adult heroes, going to space, and inspiring the rest of her school to open up about their own powers. Sooner or later, that ride has to end, and with school out of the way Penny is hatching a mad scheme to end it on her own terms. Will that go smoothly? Of course not. Penny's left too many unsolved problems behind her already, like ghosts, seriously crazy friends, and angry little girls from Jupiter. One by one, they'll have to be dealt with before she can do battle with herself. She'd better hurry, because her parents are closing in. Whether she confesses or not, this time they will find out her secret.
