Issues of Gender and Sexual Orientation in Humanitarian Emergencies Larry W. Roeder 2014-08-05

Natural and manmade disasters do not affect everyone equally, especially when resources are not equally accessible. Girls and women in particular face heightened risks of violence and abuse and many countries bar female-headed households from receiving aid. Across the globe, a wider understanding of gender issues is needed to craft effective policies and carry out equitable practices in disaster planning and response. The first full-length reference of its kind, *Issues of Gender and Sexual Orientation in Humanitarian Emergencies* brings together data pinpointing disparities with practical suggestions toward improving post-event adjustment for all. Arguing forcefully for an egalitarian lens in humanitarian aid, the book offers guidelines that governmental agencies and NGOs alike can implement at all levels of preventive and relief efforts to better assist victims and minimize further trauma. Salient areas covered include gender differences in the effects of disasters on children and adolescents, the heightened risk of domestic violence in disasters and challenges facing the LGBTI community in relocation. In addition, examples from a cyclone event in Australia relate the experiences of victims, organizations and aid workers to larger social issues. Included among the topics: Gender and the impact of disaster on youth. Personal network structure and gendered well-being in disaster and relocation. Sexual and gender minorities in humanitarian emergencies. Gender as hazard in disaster planning and response. The relationship of disaster and domestic violence. The impact of disasters on workers and services. Addressing a major threat to public and social health, *Issues of Gender and Sexual Orientation in Humanitarian Emergencies* is an essential sourcebook for researchers and professionals working with NGOs, disaster management, domestic violence, humanitarian relief and refugee health.

Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the

latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

Afghan Refugees in Pakistan Hanne Christensen 1984 This study is the second part of a report on the conditions of Afghan refugees in Pakistan after the emergency relief phase. Its goal is to find answers to four questions concerning the refugee situation in the two sample frontier villages of Barawal and Orakzai: a) where do refugees obtain their food and income; b) what social and economic links do they have with the community; c) does the provision of free food and relief deter refugees from engaging in productive economic activities; and d) what are the best ways of identifying and assisting vulnerable groups? The report is divided into seven sections: Introduction; The Refugee Intake and Food Distribution Experience; The Refugee Communities; Refugee Interaction with Local People; Summary Findings; Conclusions; and Photographic Documentation. The following recommendations conclude the report: 1) refugee-initiated income-generating projects which are appropriate to Pakistan's development policies should receive international and local support; 2) newly-arrived refugees should be given a hundred per cent relief while aid to those settled for more than two years should be phased out by gradual monthly reductions; 3) careful monitoring of the phasing out process must ensure that, at each step, refugee income is adequate; and 4) refugees should be well-informed about reasons for, and the modalities of, the phasing out with a trial period at the outset.

Dangerous Sanctuaries Sarah Kenyon Lischer 2005-02-25 Since the early 1990s, refugee crises in the Balkans, Central Africa, the Middle East, and West Africa have led to the spread of civil war. To understand the role of refugees in the spread of conflict, this text systematically compares violent and nonviolent crises involving Afghan, Bosnian & Rwandan refugees.

U.S. Foreign Policy and the Four Horsemen of the Apocalypse Andrew S. Natsios 1997 This book explores the emerging phenomenon of complex humanitarian emergencies and the evolving policies of the United States in responding to these emergencies. In addition, Andrew Natsios examines the relationship of disaster response to U.S. foreign policy and national interest, and makes suggestions for improving both relief strategies and systems for designing those strategies. To these issues Natsios brings his first-hand experience in numerous key positions. Mr. Natsios provides case study analysis from these experiences over the past five years to illustrate the arguments presented in the book, particularly regarding Somalia, Angola, Sudan, Panama, and Kuwait and Kurdistan following the Gulf War. As former president George Bush indicates in his foreword to the volume, this book will make a substantive contribution to continuing

and enhancing vitally important work. Of great interest to scholars, researchers, and policy makers in the areas of contemporary American foreign policy and humanitarian activities abroad.

Social Protection in Developing Countries Katja Bender 2013-09-02 Providing universal access to social protection and health systems for all members of society, including the poor and vulnerable, is increasingly considered crucial to international development debates. This is the first book to explore from an interdisciplinary and global perspective the reforms of social protection systems introduced in recent years by many governments of low and middle-income countries. Although a growing body of literature has been concerned with the design and impact of social protection, less attention has been directed towards analyzing and explaining these reform processes themselves. Through case studies of African, Asian, and Latin American countries, this book examines the 'global phenomenon' of recent social protection reforms in low and middle-income areas, and how it differs across countries both in terms of scope and speed of institutional change. Exploring the major domestic and international factors affecting the political feasibility of social protection reform, the book outlines the successes and failures of recent reform initiatives. This invaluable book combines contributions from both academics and practitioner experts to give students, researchers and practitioners in the fields of social security, economics, law and political science an in-depth understanding of political reform processes in developing countries.

Voluntary Foreign Aid Programs United States. Advisory Committee on Voluntary Foreign Aid 1971 Refugee Earnings and Utilization of Financial Assistance Programs David S. North 1984 This paper studies

refugee income and refugee dependency on public assistance programmes in the United States. It is composed of three sections. Section I, 'Refugee Earnings', describes income levels on Indo-Chinese refugees (primarily Vietnamese) who arrived in 1975 and also compares this income with those of later-arriving compatriots, Kampuchians, Laotians, Hmong, and ethnic Chinese. Section II, 'Public Assistance Utilization', poses five questions: 1) what is the total amount of assistance received by refugees; 2) what has been the evolution of this assistance; 3) what are the characteristics of assistance users; 4) how is assistance distributed from state to state; and 5) how have high unemployment and low wages affected refugee use of assistance programmes? Section III, 'The Public Policy Issues', discusses US Government policy; compares refugees with other disadvantaged Americans; compares cash assistance programmes with other types of refugee aid; and, discusses ways to reduce refugee dependency. The author concludes that welfare dependency is related to inadequate education; low English proficiency; job inexperience in the country of origin; larger families; 'pull factors' such as high benefits in individual states; and, general unemployment and low wages in the US. He suggests initiatives to eliminate or reduce dependency rates, such as requiring a certain level of English proficiency for admission. Nineteen tables and an appendix are included.

The Syrian Refugee Crisis in Lebanon Robert G. Rabil 2016-07-29 This book examines the unfolding of the Syrian refugee crisis in relation to the spillover of the Syrian civil war in Lebanon and against the background of Lebanon-Syria relations and Lebanon's socio-political, cultural, legal, and economic conditions. It surveys Lebanon's response plans to the refugee crisis as part of the development of the international response plans to address the protection and needs of the Syrian refugees and Palestinian refugees from Syria, as well as the impacted host communities and institutions. At the same time, this book emphasizes the dramatic shift in popular and institutional attitudes towards the refugees as a response to and as a growth of the sheer magnitude of the refugee crisis, which made Lebanon the only country in modern history with the highest per capita concentration of refugees in the world. By examining these

attitudes against the background of achievements and failures of the response plans, the impact of the crisis on state institutions on the local and national levels, and the collective consciousness of a nation barely surviving the scars of its civil war, this book not only underscores the deepening tragedy of Syrian and Palestinian refugees in Lebanon, but also the consequential tragedy of many Lebanese, who have been forced into poverty and whose livelihoods have been affected by insecurity and the almost complete collapse of social services. As a result, the tragedy of the Syrian refugee crisis has become an international crisis affecting vulnerable persons across nationalities, and, unless it is addressed diplomatically and its response plans sufficiently funded, the tragedy will only deepen across continents.
